overview

Yondr initially engaged ISS to support its team with U.S. regulatory compliance, specifically in preparing foundational safety programs for its first project in the Americas. Since then, ISS has become a trusted partner, providing Yondr with specialized health and safety expertise and managing on-site safety operations. This partnership allows the team to focus on their core responsibilities while assuring the highest standards of safety compliance on project sites.

challenges

As Yondr expanded its operations, it needed a reliable partner to handle increasingly complex health and safety compliance obligations, maintain flexibility, and deliver high-quality safety talent on demand. The objective was to build a partnership where Yondr could rely on ISS as an extension of its own team.

Solutions provided by ISS...

» **Expertise and Flexibility:** ISS provided a high level of technical knowledge, enabling Yondr to manage safety compliance seamlessly and efficiently. The flexibility to quickly adjust to Yondr's changing needs was crucial in supporting evolving project demands.

» **Relationship and Trust:** The relationship built with ISS became a "force multiplier" for Yondr, enabling them to rely on ISS's expertise without needing to micromanage every aspect. This trust allowed Yondr to focus on strategic initiatives while feeling confident in ISS's safety representation.

» **Responsive Staffing and Talent Integration:** ISS went above and beyond by not only supplying qualified safety professionals but also facilitating a seamless transition when Yondr wanted to bring ISS team members into permanent roles. This adaptable staffing model strengthened Yondr's internal team with individuals already familiar with their projects and culture.

What does Yondr say?

Ron Gantt

HSE Director - Americas
Yondr Group

"The main thing you provide is expertise... ISS has the detailed technical knowledge that's incredibly useful."

"We've built a good relationship, and that matters a lot in this industry... It's like a 'force multiplier,' allowing me to trust you're handling safety while I focus elsewhere."

"One of the first things I'd say is that with ISS, you get flexibility. If I need someone right away, I know I can pick up the phone, and ISS will have us covered."

"ISS doesn't just provide staff – they're part of our team. You invest time and attention in the relationship, which makes a huge difference."

Results and Impact

Since partnering with ISS, Yondr has consistently met safety compliance requirements and created a safer work environment, effectively mitigating risks and protecting its workforce. The partnership's success is anchored in ISS's commitment to honesty, reliability, and delivering tailored solutions that align with Yondr's needs.
